Plethora General Trading LLC manages its employees with SAP Business One®

Plethora is specialized in high end beauty products and now is proud to be one of the first in the Middle East to introduce a perfume temple 'Artistic Perfumery lounge' dedicated only to the most prestigious perfume brands in the world. Everything from the design, merchandising and the customer experience is thought to provide luxury lovers with the ultimate environment to enjoy their passion.

Since SAP Business One with 10XPaybooks was implemented, Plethora General Trading LLC, can manage employee profiles, benefits, leaves, air ticket requests with a proper control mechanism for employees and line managers in an efficient and well-organized workflow-driven manner.

SAP Customer Checkout helps you adapt to the demands of the fast-moving retail, entertainment, and food and beverage sectors by taking advantage of new business opportunities in an agile manner. You can scale, integrate, and extend your POS solution rapidly to meet the needs of a growing business, while centrally managing multiple POS systems to get a consolidated view of receipts, vouchers, and users. The application also provides sophisticated tools to help you manage employees effectively and maintain personalized customer communications in compliance with data privacy regulations.
